

AZALEAS

BIOGRAPHY:

AZALEAS are a 5-piece metalcore band who fuse thrash and hardcore metal into their music.

Forming a band was the idea of AZ (Vocals) and Leon Haworth (Guitar) around the end of 2023. It wasn't until a jam session in January 2024 where the pair met Shay Lipyeat (Bass) that the idea of AZALEAS became more than just an idea. From this point, the trio started writing together, and the chemistry between them worked amazingly as a band. So, in April of 2025, Matt Joiner (drums) and Harrison Wallace (Rhythm Guitar) joined the official lineup for AZALEAS, and the band played their first gig as a 5-piece, opening for the UK's biggest Iron Maiden tribute act, Ed Force One: A tribute to Iron Maiden. Since the gig in May of 2025, the band have continued to grow, having just completed a sprint from Manchester and Stockport to Leicester and Cheltenham.
